

Name: A. Mounish

Reg. no:192472273

Code: DSA0307

Course: Natural Language Processing

Experiment 13: Parse Tree Generation

Python Code:

```
sentence = input("Enter a sentence: ")
```

```
words = sentence.split()
```

```
if len(words) == 3:  
    print("Parse Tree")  
    print("S")  
    print("|-- Subject :", words[0])  
    print("|-- Verb   :", words[1])  
    print("|-- Object  :", words[2])
```

```
else:  
    print("Enter exactly 3 words.")
```

Output:

Output

```
Enter a sentence: Ram likes apples  
Parse Tree  
S  
|-- Subject : Ram  
|-- Verb    : likes  
|-- Object  : apples  
  
=== Code Execution Successful ===
