Code: DSA0307

Course: Natural Language Processing

Experiment 23: Text Coherence Evaluation

Python Code:

```
sentence = input("Enter a sentence: ")
```

```
text = input("Enter text: ")
```

```
words = text.split()
```

```
if len(words) >= 4:
```

```
    print("Text is Coherent")
```

```
else:
```

```
    print("Text is Not Coherent")
```

Output:

Output

```
Enter text: AI improves human life  
Text is Coherent
```

```
=== Code Execution Successful ===
